DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the Koehler illumination in said x-direction and y-direction must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 9-11, 13-16, 19-21, and 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 9-11, 13-16, 19-21, and 24-26 recite "said illumination system provides a Koehler illumination in said x-direction and y-direction", which was not described in the specification in such a way as to as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Allowable Subject Matter

4. Claims 3-8 and 12 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

With regard to claims 3-8 and 12, the prior art discloses illumination systems for lithography with wavelengths ≤ 193 nm that comprises: (a) a first optical element, which is divided into first raster elements and lies in a first plane, wherein at least two of the first raster elements have different aspect ratios; and (b) a second optical element, which is divided into second raster elements, wherein a second raster element is assigned to a first raster element.

Art Unit: 2882

However, the prior art fails to teach or fairly suggest that at least some of the second raster elements have an anamorphic optical effect such that an aspect ratio of images of the first raster elements is substantially the same in the object plane independent of the aspect ratio of the first raster elements as claimed.

Response to Arguments

6. Applicant's arguments filed 23 October 2006 with respect to claims 9, 11, 13, and 19 have been fully considered and are persuasive. The rejection of claims 9, 11, 13, and 19 under 35 U.S.C. 112, second paragraph, has been withdrawn.

7. Applicant's arguments filed 23 October 2006 with respect to claims 9, 11, 13-16, 20, 21, and 24-26 have been fully considered and are persuasive. The rejection of claims 9, 11, 13-16, 20, 21, and 24-26 under 35 U.S.C. 102(b) as being anticipated by Oshino (U. S. Patent No. 5,677,939) has been withdrawn.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2882

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
